CHINA CONSULTING CONSORTIUM LIMITED

INTRODUCING CHINA CONSULTING CONSORTIUM

YOUR BUSINESS PARTNER

China Consulting Consortium (C C Consortium) is a group of professional firms of auditors, tax accountants and business advisors based in China (Hong Kong and Dongguan), United Kingdom and Singapore. C C consortium was founded by a UK Chartered Accountant over 25 years ago in the United Kingdom (Since 1996).

We offer a wide range of corporate secretarial, accounting, auditing, taxation, financial & management consulting services to businesses which are doing cross border trading transactions and establishing investment structures. We have vast experience in completing individual and Corporate tax returns and advising on tax efficiency solutions in Hong Kong.

Whether you're the leader of a multinational corporation looking for growth across borders, or an entrepreneur stepping into new markets, you'll inevitably encounter some 'friction'. Local laws, regulations, taxes, duties and work permits are just some of the things guaranteed to differ from your home territories. Then, of course, there are customs and culture...

At China Consulting Consortium, we help you navigate these issues, overcoming the many legal, administrative and cultural barriers that can stand in the way of entrepreneurship.

Our team members are multi-disciplinary experts drawn from legal, accounting, finance and tax. You'll benefit from 'Big 4' experience without the big overheads. Most of our managers have at least a decade's experience in corporate administration, while our directors typically have more than twice of that. We're fully compliant with all international and local tax regulations, data privacy rules and anti-money laundering requirements. And we have the expertise to support your company's expansion, whether you're part of a mature multinational looking for footholds in UK and China markets, or a local start-up with ambitions for rapid growth. It's our job to help you managing your business. We look forward to be part of your journey.
